

Wood Badge Testimonials

What does Wood Badge mean for me? It means awareness. Awareness of not just the strengths I had and didn't know I had but also a greater awareness of the weaknesses that were a part of me as well. Weaknesses that Wood Badge helped me to better accept and understand, but to also identify which ones I could turn into strengths. But most importantly Wood Badge made me aware of a network of leaders, mentors, friends, and support unlike any other I have experienced. Wood Badge can do the same for you, an experience that will stay with you, if you let it. - *Tim Brown*

Woodbadge has given me tools to be successful in scouting as well as my personal life. -*Sarah Davis*

I've attended summer camp with my troop for 10 years, completed a fifty miler, was Scoutmaster for Eagle Camp 3 times, been to Sea Base twice and staffed the National Jamboree once, but Wood badge has been the best scouting experience from start to finish I ever had. - *Jim Duffy*

Wood Badge gave me the tools and just as importantly, the attitude to be a better leader. Not only in Scouts, but through every aspect of my life. - *John Graesser*

Woodbadge was such a brilliant experience for me, it increased my knowledge of Scouting and how units are supposed to run, grow and lead. I was able learn and experience things that will stay with me for the rest of my life. It also gave me new connections & friendships, some people I knew before, some I did not, and from Woodbadge these amazing people will always be in my life for support, guidance, sharing and FUN! - *Sharon Masciovecchio*
